ALASKA STATUTE 16.05.940 definitions (25) states:

"person with developmental disabilities" means a person who presents to the department an affidavit signed by a physician licensed to practice medicine in the state stating that the person is experiencing a severe, chronic disability

- (A) attributable to a mental or physical impairment or a combination of mental and physical impairments;
- (B) that is manifested before the person reaches 18 years of age;
- (C) that is likely to continue indefinitely;
- (D) that results in substantial functional limitations in three or more of the following areas of major life activity: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency;
- (E) that reflects the person's need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services that are of lifelong or extended duration and are individually planned and coordinated;
- (F) and that the person is not a danger to themselves or others;
- (G) and that the person does not suffer from a mental illness; in this subparagraph, "mental illness" means an organic, mental, or emotional impairment that has substantial adverse effects on a person's ability to exercise conscious control of the person's actions or ability to perceive reality or to reason or understand.
